25 Oct 14:00-16:00 hrs

Meetup: High Tech Industry meets Artist: Increasing Visibility and Future Thinking

– Meetup

Invite artists to play with or find new purposes of new tech inventions. Artists (who often also studied engineering) invented the Oculus Rift 10 years before it existed, created Smart Highways, Spider-dresses that were world news, let's mix 2 highly innovative sectors!

Artists are invited to play with the newest HighTech features from Brainport area. See, feel and discuss with the technology makers. With: flexible OLED lighting panels, hybrid/flexible electronics, Light touch Matters, sensor arrays/sensing surfaces, proximity based services for IoT, Holographic displays / 3D, EEG headsets , VR and in-moulded electronics.

Event follow-up program:

- HolstCentre or factory visit for selected artists
- From idea to business session at BOM-Tilburg
- Manufacturing of a few ideas (if possible)
- Next year: demonstration en follow-up during Manifestations 2018
