

PEN – Smoker, I Love You – Family Space Cocoon

Smoker, for you, who is tired of going up and down in the cold or the summer heat waves.. inside this portable cabin, you will finally be able to relieve yourself.

Family Space Cocoon

Feeling sorry for those kids, being brought to school on their parents' bike during winter. Red, cold, snorty faces attracted my pity. Here is a device able to protect all the bikes' occupants from the wind and the rain. I don't think you should be ashamed to be a softie. After all, we all need a bit of sweetness.
